Upon a further review of the claims the indication of allowability of the claims is withdrawn in order for applicant to respond to the following rejection.

Claims 11 & 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims have been amended to include beta glucan but the claims are confusing in the last line, with respect to the composition of the fat product. An amendment to the claims inserting –further- prior to “comprises” in the last line of claim 11 would overcome the rejection.

Claim 21 is allowed.

Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

None of the references that have an effective date prior to applicants filled application suggest the inclusion of beta glucan as an ingredient along with fat and cyclodextrin.
